Summary

BE Computer Science Engineering graduate with specialization in **Artificial Intelligence and Machine Learning**. Skilled in **SQL**, **Python**, **Power BI**, and **data visualization**, with strong **analytical abilities** to extract insights and support business decisions.

Education

Armiet College of Engineering, Shahapur *2021-25*
Bachelor of Engineering in Computer Science -AIML CGPA: 6.33

Huda Junior College, Bhiwandi Thane *2021*
Maharashtra Board, Maharashtra XII – 80.33%

Projects

Haberman EDA - Link

- Analyzed a **hospital cancer dataset (n=500+)** to predict patient survival outcomes based on lymph node counts ranging from 0–52
- Developed and evaluated a **predictive model** to classify patients into 5 or <5 years survival categories.
- Achieved **92% model accuracy** for patients with **0–10 lymph nodes**, validating predictive effectiveness.
- Discovered a **29% positive correlation** between lymph node count and survival duration, providing actionable clinical insights.

Data Mart - Link

- Analyzed **sales data from Data Mart (2018–2020)** to evaluate **Shopify and retail channel performance** across multiple segments.
- Performed **data cleaning and transformation**, introducing a new **Demographic column** to classify customer types — *Couple (C1–C4)* and *Family (F1–F4)*.
- **Data Exploration**: Created CTE, Yearly Sales, Total Transaction by year.

Black Friday Sales Analysis - Link

- Analyzed **sales dataset** across **7 age groups (0–55+)** to study purchasing behaviour across **3 product categories**.
- Found **Product ID P00265242** as top-selling, contributing **34% of total sales (1,880 units)**.
- Created **2 dummy columns** from *city_category* to support further analysis.

Skills

Languages: Python, SQL, DAX functions
Libraries and Frameworks: Pandas, NumPy, Matplotlib, , Seaborn, Plotly,
Tools: Git, GitHub, Jupyter Notebook, Power BI, MS Excel
Databases: MYSQL , PostgreSQL

Achievements And Certifications

- GenAI powered Data Analytics job simulation-(Forage x TATA): Certificate
- Python for Data science-(CloudyML): Certificate
- SQL-(CloudyML) : Certificate
- Power BI-(CloudyML) : Certificate
- Mentored 15+ junior students in Data analytics fundamentals and intermediate concepts.
